

Literacy/ Communication and Language

What Is It?

Play a describing game with someone at home. Choose an object that you can see and describe it to the other player. Take turns describing and listening.

For example-

'It is red and has 4 wheels, I like to drive it on the carpet. Yes, it is a toy car.'

Personal Social and Emotional Development

Look at a group of toys and discuss what is different about each one of them and what you like about them. Just like these toys are all different, so are we: we are UNIQUE (check understanding and if needed explain meaning). We are all different but we all belong to All Saints Bedworth. That is what makes our school a wonderful place to be.

R.E

Help your family prepare a meal for a special occasion or celebration (like harvest) and talk about how this makes you feel special.

Discuss:

- What makes you feel special?
- Who is important to you?

Physical Development

Crab walking- Who is the fastest at crab walking in your family?

Begin by sitting on the floor, feet hip-distance apart in front of you and hands next to your bottom with fingers facing forwards. Lift your bottom off the floor and 'walk' in any direction. Keep those hips up! Can you play crab football?

Amazing Me, Amazing Community

Reception

Home Learning Autumn 1

Phonics

Check our dojo website to see the sound of the day. Practice this sound and the rhyme that goes with it. When the children start reading, please read with them daily.

Expressive Arts and Design

Make a portrait of a member of your family using the collage technique – cutting and sticking images from newspapers or magazines. If you can't create a collage, the children can draw or paint the portrait of their family member.

Understanding the World

Do you know which foods are healthy and which are a treat so we shouldn't eat much of them? Collect food packaging and wrappers and sort them into 'healthy' or 'treat' groups. For example; grapes are healthy (we can eat lots) cake is a treat (only eat a little)

Mathematics

Go on a shape hunt, how many different shapes can you find? Look out for circles, triangles, squares and rectangles. Can you find any other shapes? Which shape did you find the most?
